

Sprint 15: 5/06 - 5/12

Scrum Master: Sarah S.

Daily Scrums:

Date: 5/6/24	Are You Blocked?	What Did You Work On?	What Are You Going To Work On?
Kay	no	Clean up user views in applications	Configure application routing
Carine	no	No Progress	No Progress
Brandon	no	System Observability JS functions to fetch data for Failed/Successful Registrations and Login	System Observability JS functions to fetch data for Top 3 View Durations, Used Features, Company Spaces, and Company Reservations
Sarah P.	no	UDP: unit test success cases	UDP: unit test fail cases
Sarah S.	no	Resolve merge conflicts with Main branch	Security: Login Cypress testing

Date: 5/7/24	Are You Blocked?	What Did You Work On?	What Are You Going To Work On?
Kay	no	Configure application routing	Configure application routing
Carine	no	Clean up UI	Fix reservation services
Brandon	no	System Observability JS functions to fetch data for Top 3 View Durations, Used Features, Company Spaces, and Company Reservations	System Observability HTML View
Sarah P.	no	UDP: unit test fail cases	UDP: auto test success

			cases
Sarah S.	no	Security: Login Cypress testing	Security: Tokens LLD (success)

Date: 5/8/24	Are You Blocked?	What Did You Work On?	What Are You Going To Work On?
Kay	no	Configure application routing	Redo all apis to use new config
Carine	no	Fix reservation services add security to user profile	Split account recovery into user and admin
Brandon	no	System Observability HTML View and JS function to refresh data every 60 seconds	Reconfigure AWS to a new account
Sarah P.	no	UDP: auto test success cases	UDP: auto test fail cases
Sarah S.	no	Security: Tokens LLD (success)	Implement Logging to backend

Date: 5/9/24	Are You Blocked?	What Did You Work On?	What Are You Going To Work On?
Kay	no	Redo all apis to use new config + fix app specific features to all work synchronously	Fix styling for app specific features + create system admin view
Carine	no	Split account recovery into user and admin, add security to both	Add filters and more user friendly functionalities and features
Brandon	no	Reconfigure AWS to a new account with the all the details from the previous AWS account	System Observability function for Feature Use and View durations
Sarah P.	no	UDP: auto test fail cases	Account deletion queries fix

Sarah S.	no	Implement Logging to backend	Implement Logging to backend, push APIs to main and deploy
-----------------	-----------	-------------------------------------	---

Date: 5/10/24	Are You Blocked?	What Did You Work On?	What Are You Going To Work On?
Kay	no	Fix styling for app specific features + create system admin view + fix configurations	Clean up cors issues
Carine	no	Add filters and more user friendly functionalities and features	Collect and clean up LLD
Brandon	no	System Observability function for Feature Use and View durations into HTML and JS. Deploying APIs and setting up the RDS instance	Redeploy APIs and Configure Firewall Settings and insert data into RDS instance
Sarah P.	no	Account deletion queries fix	Account deletion frontend
Sarah S.	no	Implement Logging to backend, push APIs to main and deploy	Fix backend confirmation auto tests, Tokens LLD (failure)

Date: 5/11/24	Are You Blocked?	What Did You Work On?	What Are You Going To Work On?
Kay	no	Clean up cors issues	Testing all my features + fix all my low level design diagrams
Carine	no	Collect and clean up LLDs	adjust all unit tests
Brandon	no	Redeploy APIs and Configure Firewall Settings and insert data into RDS instance	Clean up System Observability and Personal Overview

Sarah P.	no	Account deletion frontend	Test all my features, clean up waitlist and udp, add logging
Sarah S.	no	Fix backend confirmation auto tests, Tokens LLD (failure)	Sprint 15 documents (push to main), practice presentation

Date: 5/12/24	Are You Blocked?	What Did You Work On?	What Are You Going To Work On?
Kay	no	Testing all my features + fix all my low level design diagrams	Present final project!
Carine	no	adjust all unit tests	Practice project presentation
Brandon	no	Clean up System Observability and Personal Overview. Adjusting Unit Tests	Practice Presenting
Sarah P.	no	Test all my features, clean up waitlist and udp, add logging	Practice presenting
Sarah S.	no	Sprint 15 documents (push to main), practice presentation	Present project
